New Delhi | Gyandeep1030@gmail.com | 8076390223 | Gyandeep Kumar | Gyandeep1030

Skills

Front-End: React.js, React Native, Redux, JavaScript (ES6+), TypeScript.
Back-End: Node.js, REST APIs, Firebase.
Tools: Git, GitHub, VS Code, Postman.
Other Languages: Java, Python.

Professional Experience

React Native Developer *Gurugram*
Oodles Technologies *Dec 2025 – Present*

- Architecting and developing scalable cross-platform mobile applications using **React Native** with optimized component structures and modular codebase.
- Implementing secure **RESTful API integrations**, asynchronous data handling, and advanced state management for high-performance mobile experiences.
- Optimizing application performance through efficient rendering strategies, memory management, and debugging using modern development tools.

React Developer *Jan 2025 – Nov 2025*
Anteris Software Solutions · Full-time

- Developed and maintained scalable single-page applications using **React.js**, implementing reusable components and modern ES6+ standards.
- Integrated backend services via **REST APIs**,seamless data synchronization and optimized UI rendering.
- Improved application responsiveness and performance through code-splitting, lazy loading, and efficient state management techniques.

Full Stack Developer Intern *Gurugram*
Qspider *Aug 2024 – Dec 2024*

- Built responsive web applications using **React.js**, **Redux**, and modern JavaScript, ensuring cross-browser compatibility.
- Designed and consumed **RESTful APIs** using **Node.js**, improving data flow efficiency between client and server.
- Enhanced application performance by optimizing component re-rendering and implementing API response caching.

Projects

GlowCartCLI – React Native E-Commerce App

- Built a cross-platform **React Native e-commerce mobile app** enabling users to browse products, manage wishlists, and complete purchases on Android and iOS.
- Implemented **user authentication**, **product browsing**, and **shopping cart** functionality with dynamic state management.
- Tech Stack – **React Native**, **Redux**, **Firebase**, **JavaScript (ES6+)**, **Node.js**.

MERN Projects Portfolio

- Built and deployed **10+ full-stack projects** using the **MERN stack**.
- Implemented authentication, protected routes, and fully responsive UI designs.
- GitHub Portfolio: github.com/Gyandeep1030

Education

KR Mangalam University *2023 – 2025*
- Masters of Computer Application (MCA)

PDM University *2020 – 2023*
- Bachelor of Computer Application (BCA)
